

Regular

Pa Salieu

I'm not regular, style no regular
Smoke no regular, hustle no regular
Mind no regular, life no regular
Me, I grind regular, praise God regular
When I plant seeds, then fruits come regular
Body so bad I wanna see her regular
I don't regular; me, I like irregular
I don't like regular
Me, I like no regular

African intelligence, spiritually online
I just wanna live life, nice, having good times
Not regular
I'm back again, straight out the Tardis
Was in my cell, travelling, reading on philosophy
Far from regular, ancient old spirit
I don't like nonsense, cut with that bullshit
Can't reach me on my cellular
Der, I'm in Jupiter
Extraterrestrial high, like celestial

I'm not regular, style no regular
Smoke no regular, hustle no regular
Mind no regular, life no regular
Me, I grind regular, praise God regular
When I plant seeds, then fruits come regular
Body so bad I wanna see her regular
I don't regular; me, I like irregular
I don't like regular
Me, I like no regular

Hello, hello, you see I came for a good time
Style and brilliance came from the past time
Buried me a long time, I'm back inna real life
Free from apartheid, this time we more wise
You've seen the archives
African di alien was guided by the Most High
Dark like before life, before there was light, there was no light
I'm not blind, even in the dark, I can see light

I'm not regular, style no regular
Smoke no regular, hustle no regular
Mind no regular, life no regular
Me, I grind regular, praise God regular
When I plant seeds, then fruits come regular
Body so bad I wanna see her regular
I don't regular; me, I like irregular
I don't like regular
Me, I like no regular regular
