

# Round & Round

Pa Salieu

I just wanna let you know  
I can never let you go  
Sugar, I know you must know  
Baby, you're my vibe and home  
Baby, you're inside my soul  
Let me hold you tight and slow  
Round and round we go  
Round and round we go

I love the way you hold yourself  
I pray daily for your peace and health  
Overcame so much, I love your strength  
Even when the world, it moves so tense  
I love the way that you're so content  
Hardship gave you deep knowledge  
Come to me, you can seek solace  
My empress, you are my palace

It's me and you, no ego  
How can I fear when I trust you?  
I wanna feel your spirit, mi na let go  
Baby, come here, let me hug you  
'Cause when you feel pain, I feel it too  
Anything, anything, we'll make it through  
Bad man, you know what I do

Round and round, but I still need you  
I just wanna let you know  
I can never let you go  
Sugar, I know you must know  
Baby, you're my vibe and home  
Baby, you're inside my soul  
Let me hold you tight and slow  
Round and round we go  
Round and round we go

Allow love to take control  
Let's plant a seed and grow  
Baby, let me give you a show  
Baby, where you go, I go  
Baby, you're inside my soul  
Let me hold you tight and slow  
Round and round we go  
Round and round we go

I know love makes you vulnerable  
And it scares me too  
But the way I feel is unexplainable  
All my life I've always been misunderstood  
I understand what I mean to you  
My heart feels heavy when you're miserable  
I put it on my life, I see you for you  
Kind-hearted, smart-minded beauty  
The way you treat me makes me see clearly  
The way you talk to me like you're tryna heal me  
I'm sorry that I'm complicated  
I'm sorry that I'm such a burden

Lady, you're strong, and you're respected  
Hope that you never feel neglected  
Woman, you're my queen, my baby, my boo  
Round the world, but my home's in you

I just wanna let you know  
I can never let you go  
Sugar, I know you must know  
Baby, you're my vibe and home  
Baby, you're inside my soul  
Let me hold you tight and slow  
Round and round we go  
Round and round we go

Allow love to take control  
Let's plant a seed and grow  
Baby, let me give you a show  
Baby, where you go, I go  
Baby, you're inside my soul  
Let me hold you tight and slow  
Round and round we go  
Round and round we go
