

# Shining

Pa Salieu

Hmmm, hmmm, yeah yeah  
No no yeah

Don't let me down  
Feel like I had to take it, simmer down  
Wonder why my guy you gat to feel this way  
In a different space, in a different light  
You ain't shining, Oh why?!  
And she's a diamond in their eyes  
I pray to God you life more life yeah  
You never seen a better life no  
They only take but you survive say

Look, pain in my chest so I give it to them  
All the anger, I just give it to them  
For my family, bitch I'll rise for them  
For the system, they ain't never cared for them  
Yesterday I dey fight for my high list  
Came and you feel still fighting  
Today man you fought for still grinding  
Don't know why I don't speak no evil  
I'm shining  
Sprinkle chest me, no biting her (brru)  
Fire one, she love riding ugh  
She don't face small, no hiding ugh  
She tell me the energy energizing her  
Ama real life hustler  
Heart strong and I get mulla  
Why they want the worst for my man like Pa  
B-b-block boy, the life of a rockstar

Don't let me down  
Feel like I had to take it, simmer down  
Wonder why my guy you gat to feel this way?  
In a different space, in a different light  
You ain't shining, oh why?!  
And she's a diamond in their eyes  
I pray to God you life more life yeah  
You never seen a better life no  
They only take but you survive say

Ku'onbe!  
Seen a friend moving like enemy (imagine)  
Enemy moving like a friend too (I see)  
All this shit don't bother me (at all)  
But what do you expect from a restroom  
Growing up, paid my dues  
Nobody can stop me now  
I be spitting fire on every microphone  
You can call me Godzilla, blessed and lucky man  
My life, let me tell you something about life  
I fall 9 times 10 times I will rise  
Cus there's no boundary or limit  
To how really big I can become in my life  
Oh oh oh oh oh oh, see my life  
Got God shining light on my life  
Got got pussies all in my life

Wanna have babies for me in my life!

Don't let me down  
Feel like I had to take it, simmer down  
Wonder why my guy you got to feel this way?  
In a different space, in a different light  
You ain't shining, oh why?!  
And she's a diamond in their eyes  
I pray to God you live more life yeah  
You never seen a better life no  
They only take but you survive say
