Grab that spinner from Harry's  
Young one did dirt with the magic wand  
Swing that power of lightening  
Yeah they tour with reason, cuh me nuh tek treason  
Bro let's burn that slytherin  
Bet he's all a neek, save me in the time of need  
Pagan can't phone me  
See fake in the eyes of men  
We never beg friend when we're there in the time of need  
My bredrin, how many times did I ride for me life say?  
How many times? One-two, one-two  
One-two many time, one-two many time in this life I live  
Bomboclaat

Trapped all morning (trapped all morning)  
I ain't had shit, what did I do?  
Trapped all morning (trapped all morning)  
Nobody had me so what did I do? (huh)  
Trapped all morning (trapped all morning)  
What did I do to eat?  
Trapped all morning (trapped all morning)

What I love about me  
I learnt how to maneuver and juke in silence  
I don't trust nobody much, juke and finesse  
When the system expected me to feel sorry for myself  
Trap showed me how to get paid, now I can never go broke

There's silence to the jungle  
Trapped out [?], put defense up  
And this made me survive a bit

Trapped all morning [x7]
