

Let It Go

Pablo Cruise

Something inside you
That's dying to get out
There's more to you
Than anyone knows about
So why you trying to keep it a secret
You're still afraid of who you are
But you dream about
Being a Broadway star
Well you already are
You got what it takes
Just give yourself a break

Oh, oh let it go
Oh, oh just let it go

Private school such a gifted child
Working all night you never get wild
What's the point
When you're not really happy
Yeah, you were the one with the high I.Q.
But now you discover another you
That wanna to break out
Wanna to cut loose
Make it all simple and pour on the juice

Oh, oh let it go
Oh, oh just let it go
