

## This Time

Pablo Cruise

If somethin's been holdin' you down  
There ain't nothin' stoppin' you now  
And you can cross that bridge tonight  
If you want too  
Cause sooner or later  
You're gonna find out  
That nobody else will  
Do it for you

This time  
It's time  
This time  
You ride the open highway

And nothin's gonna stand in your way tonight  
Nothin's gonna get in your way  
This time it's alright

If you feel like you're wastin' your time  
Like maybe you're fallin' behind  
Well, maybe you're afraid  
To take the chance now  
But once you decide  
You're not satisfied  
You got nothin' to lose  
Any you can make it

This time  
It's time  
This time  
You ride the open highway

And nothin's gonna stand in your way tonight  
Nothin's gonna get in your way  
This time it's alright
