

Tar on the freeway marks on the wall
This is where I fall
Figuring out it's seriously what I wanted all this time
And now I'm dyin to keep it clean and alone
Can you hear me moan?

Everyone explained it to me
And I seen what it's like on TV
With the wind blowin through your hair
Come on baby melt the honey

Scar on the teenage face of it all
Stand up straight and tall
Screamin and shoutin seriously cause I wanted it all this time
And now I'm dyin to keep it clean and alone
Can you hear me moan?
Can you hear me groan?

Everyone explained it to me
And I seen what it's like on TV
With the wind blowin through your hair
Come on baby melt the honey
