

Take Care

PACKS

Strike me anywhere, anytime
And when I sleep, I don't breathe
I should hold my breath for my whole life
And when I sweep, I don't clean
Clean

With me, I don't take care
But with you, I will, I swear

Take me everywhere, every time
And when I wake, I can feel you
I wanna see you for my whole life
And when I see, I don't need dreams
Dreams

I'm trying not to stare
I bring it up and my face goes flush
With me, I don't take care
But with you, I will, I swear
