

United We Stand

Paddy and the Rats

Sing along, sing along for the gang where you belong
With a heart of a pirate just sing this song
United we stand for our brothers and our friend
Sing along, sing along for the gang where you belong

Drink the beer, drink the beer for the beloved ship you steer
With a heart of a pirate you have no fear
United we stand for our brother and our friend
Drink the beer, drink the beer for the beloved ship you steer

Sing along, sing along for the gang where you belong
With a heart of a pirate just sing this song
United we stand for our brothers and our friend
Sing along, sing along for the gang where you belong

Drink the beer, drink the beer for the beloved ship you steer
With a heart of a pirate you have no fear
United we stand for our brother and our friend
Drink the beer, drink the beer for the beloved ship you steer

All the freaky boys and all the libertine girls
We just try to stay alive in this fuckin' mad world
Maybe we are just our generation's crank
But together united we stand

All the freaky boys and all the libertine girls
We just try to stay alive in this fuckin' mad world
Maybe we are just our generation's crank
But together united we stand

Sing along, sing along for the gang where you belong
With a heart of a pirate just sing this song
United we stand for our brothers and our friend
Sing along, sing along for the gang where you belong

Drink the beer, drink the beer for the beloved ship you steer
With a heart of a pirate you have no fear
United we stand for our brother and our friend
Drink the beer, drink the beer for the beloved ship you steer

All the freaky boys and all the libertine girls
We just try to stay alive in this fuckin' mad world
Maybe we are just our generation's crank
But together united we stand
