

I Keep

Paddy Casey

I keep you here inside my head, I am not letting go
The way you breathe, the things you said, just so you know

Well, there's you and there's me and some old R&B
And we're being as natural as people can be
And nothing feels wrong
And there's no one around and there's only the sound
Of your breathe in my ear and our hearts as they pound
That's where we belong

I keep you here inside my head, I'm not letting go
The way you breathe, the things you said, just so you know

Well, there's you and there's me and we run from the crowd
And we go to climb back on our own private cloud
And nothing feels wrong
Well, somewhere not to care and you let down your hair
And we taste each other in our own private air
That's where we belong

I keep you here inside my head, not letting go
The way you breathe, the things you said, just so you know

Well, somewhere in between the cracks of our dreams
We let go each other and floated downstream
If ya ever get lonely or lost out at sea
Don't be too stubborn to come and see me

'Cause, I keep you here inside my head, not letting go
The way you breathe, the things you said and I'm not letting go
