

## Cadaver Earth

Paganizer

A rotten existence  
soon to end in pain  
a wait for nothing more  
than carnal suffering

This deterioration  
we are born into  
the hell of human flesh  
to breathe and suffer

And this cadaver earth  
will feed on our decay  
and this cadaver earth  
will be reborn - humanless

A universe  
filled of death  
life just born  
to fade and die

A universe  
filled of death  
seasons come and go  
and so do I and so do you

And this rotting place  
will feed from your flesh  
and this rotting place, will birth a new day
