

## Hat And Rabbit

Page France

I've got a blue eyed sun  
He burns the same for everyone  
I had a new best friend  
He went and let me down again  
I've got a green green grass  
It grows so tall and grows so fast  
You've got a crooked tooth  
He loves you straighter than I do  
When I see my blue  
I still think of you  
I've got a black out name  
But hand me down I have no say  
A hat and rabbit magic show  
Magic hand won't let me go  
When I shape my trail  
You'll be the first to know  
And when you wag your tail up at the blue eyed sun  
I see angels quickly picking up their guns  
How could the sky be blue for everyone at once  
I've got a blackout name it can't be the one you want
