

# Say Wolf In The Summertime

Page France

i do say wolf  
when the sky falls down  
and i'm upside down  
with the sounds i've found  
i could take from you  
you could take from me  
i could fake in you  
you can fake in me  
but the wind don't blow  
and the sun don't shine  
so no body knows  
it's the summertime  
may i die  
in the summertime  
may your eyes  
know which glow is mine  
may i die  
in the summertime  
may your eyes  
know which glow is mine  
i do cry wolf  
when the sun comes up  
did you hear the birds  
damn near fell in love  
but i've read my books  
thought i'd grown so smart  
but i shake all night  
when the room gets dark  
i can't sleep  
at all through the night  
i can't sleep  
at all through the night  
i'll be gone  
by the summertime  
may your heart  
be apart from mine

i can say wolf  
when the sky is gold  
when the moon explodes  
when the sun turns cold  
and i'm upside down  
to the right-side-ups  
when you turn around  
i'll be right-side-up
