

Let It Go

Pages

Keep your feelings alive
I know they will survive in that place
Where years of change can't erase them

Let me see what's inside
There's no reason to hide
Be yourself
Nothing else will get in the way

Let the love out of your heart
Let it go and we can make a start
I know that we'll never part
'Cause I will do the same

You can run around inside your mind
No fresh air and no easy times
Just the same
You can get out of that game
You can get out of that game

There's no need to explain
What is real or sane
For the love that you give
Will return to you

Let the love out of your heart
Let it go and we can make a start
I know that we'll never part
'Cause I will do the same, hey hey hey

Let the love out of your heart (Let your love flow)
Let it go and we can make a start
I know that we'll never part
'Cause I will do the same, hey hey hey

There's no need to explain
What is real or sane
For the love that you give
Will return to you

Let the love out of your heart
Let it go and we can make a start
I know that we'll never part
'Cause I will do the same

(Give it up, give it up, let your love flow)
Let it go
(Give it up, give it up)
Let it go
(Give it up)
Let it go
'Cause I will do the same, hey hey hey

Let the love out of your heart
Let it go and we can make a start
I know that we'll never part
'Cause I will do the same, hey hey hey
