

## Darkness Into Light

Paige Lewis

They never said that it would be like this  
They never said for me to watch and learn  
I'd run ahead but I'm afraid of what I'll find  
I think I'll find I've lost my mind  
I've really done it this time

Chorus

(Na na na na na na na)

I don't know where to go

(Na na na na na na na)

I've fallen behind

(Na na na na na na na)

You said You could turn the darkness into light

I could use some light tonight

I bet You knew that it would be like this

I bet you knew just how this all would go

You seem convinced that there is hope for me to reach for

But have you tasted the tears that flow?

How I wish I knew what You know

Chorus

Bridge

Slow down, slow down

I love You

Slow down, slow down

I need You now

Someway somehow

Chorus
