

Dear Heartstrings

Paige Lewis

Falling deep into your heart, We have a dream,
lets make this last forever (and ever)
Yeah your all i ever needed.
Coz your always on my mind, all the time,
Your like my favourite love song on rewind,
And i just need you to know that your everything i needed.

Dear heartstrings can you play me your song,
And i'll try my best to sing along

Hey, we new it would be like this,
From the time we met to our very first kiss
Your stare pulled me in bit by bit,
The love was found and the flame was lit

Blood is rushing we breathe as one
Our knot of love cant be undone
Your part of me now, part of me now.
Part of me now.

Dear heartstrings i'm in love,
Oh god i need her

Hey, we new it would be like this,
From the time we met to our very first kiss
Your stare pulled me in bit by bit,
The love was found and the flame was lit
The love was found and the flame was like
