

Silhouettes

Paige Lewis

I'm gonna bring you too your knees with this melody,
Tell you all the things you've been dying to hear from me,
Like your beautiful and I can't let you go woah

You think you got me,
But you got it all wrong,
You'll never figure out, you'll never figure this out,
How you could possibly be used

And you mean nothing to me

I'm not in love, I'm just lonely tonight,
Say anything to make this right,
With hearts beating faster,
This is not what you planned

So this is how it goes,
When you sit at home on your own and,
You wish I was there,
Time to learn that lifes not fair

You think you got me,
But you got it all wrong,
You'll never figure out, you'll never figure this out,
How you could possibly be used

I'm not in love, I'm just lonely tonight,
Say anything to make this right,
With hearts beating faster,
This is not what you planned on
