

## Inside My Chest

Palace

I would never cease  
'Cause nothing ever comes close to you and me  
I promise you that I will do my best  
But I will never be the space inside your chest  
I lay beside you forever and ever  
Float above the days that gave us so much pleasure

Ohhhh I do it all with you  
Ohhhhhhhh I do it all with you

Wounds that never heal  
Irreplaceable the void that mothers feel  
I listen to all I can to you my love  
But we never find the words the words they all get lost  
I do it all again to sit beside you  
I do it all again for the sweetest love I knew

Ohhhh I do it all with you  
Ohhhhhhhh I do it all with you

It's getting brighter  
It's getting brighter  
It's getting brighter  
It's getting brighter
