

## It's Over

Palace

It's safe to say their love is over  
It's true I know that life goes on and on  
But the more I've seen my foundations bleeding  
The weaker I am from my roots to my heart

It's over, it's over, it's over, it's over  
It's over, it's over, it's over, it's over

I am running out of time  
Eventually they will both be just fine  
My father's wept, and my mother's crying  
I am the middle man and my strength is trying  
For the best for them, I'll be straight up praying  
Nothing left now except connections failing

It's over, it's over, it's over, it's over  
It's over, it's over, it's over, it's over  
It's over, it's over, it's over, it's over  
It's over, it's over, it's over

Take me back, it's all I need  
You are the air that I breathe  
I am the bullet, you are the gun  
We are the moon above the sun  
If we be together then you'll take my name  
If we be forever then I'll take the blame  
I am my father's son right to my bones  
Got my mother's eyes in the bluest tones

It's over, it's over, it's over, it's over  
It's over, it's over, it's over, it's over  
It's over, it's over, it's over, it's over  
It's over, it's over, it's over

It's over, it's over, it's over, it's over
