

Killer Whale

Palace

You're my golden sun
River, river, river in my veins
Time keeps chasing me
'Cause nothing ever goes slow when you're living

You elevate the heart of me
You've ghosted my negativity
Mama said be the best you can be
My sweet lucidity

There's blossom in my soul
Gold jungles all inside my head
My feeling is my toil
I'm breathing since I found my girl
My killer whale, my killer whale
You've shown me oceans in myself
In myself

'Cause the ocean resonates in my dreams
Acceleration deep breathing
Let's generate, let's oscillate
Let's fly like eagles soaring
When the doubting elevates upstairs
Remember hope comes next
If they kick at you, if they spit at you
Hit back

You elevate the heart of me
You've ghosted my negativity
Mama said be the best you can be
Sweet lucidity

You elevate the heart of me
You've ghosted my negativity
Mama said be the best you can be
My sweet lucidity
