

# Running Wild

Palace

Down the waterfall  
Found the feet to swim again  
It's for you I call  
To drown the past of me instead  
Feel the air in me  
I've lifted off the atmosphere  
Wystartowaem z atmosfery  
So steal the mask I see  
I've shifted off the wheel I steer

I'm rising high and free again  
An eagles flight it'll never end  
Found my place the evergreen  
She sets me free and I've never seen  
Cold, the hands she blessed me with  
To hold the man she wouldn't give  
A second chance to live a life  
I'm moving on and living right  
Count my years up  
Boundless future  
Sound my freedom  
Now I've grieved it  
Running wild I run  
Running wild I run  
I run  
Holding fast to anything  
My grip will last now I'm coloured in  
The river's deep but I'm river strong  
The mountain's steep but I'm holding on  
Shade the past with memories  
Shake my past of seventeen  
Pave the way for anyone  
They slaved away for the seventh time  
Give me life to live away  
A life that's mine I could never say  
Count my years up, Boundless future  
Sound my freedom, now I've grieved  
Running wild I run  
Running wild I run  
I run  
I run  
Running wild I run  
Running wild I run  
I run  
I run  
I run
