

# So Long Forever

Palace

So long to the bad vibes  
New York is coming soon  
Please be my calm  
Dust off your ignorance  
The Amazon is where I belong  
Where did and how did we go wrong?

Won't somebody but me shout?  
Keep strong and fight with your self doubt  
My lungs were riddled with our fears  
So long, I'm gone so fuck your tears

Farewell to the bad times  
Shrug off your common sense  
Soon I'll be running wild  
Getting lost in paradise  
The Amazon is where I belong  
You made and I made us go wrong  
To live more, I'll take what I'm owed  
So breathe through the seeds that we've sowed

Won't somebody but me shout?  
Keep strong and fight with your self doubt  
My lungs were riddled with our fears  
So long, I'm gone so fuck your tears

My silence is spoken  
I leave you this token  
I run from this day  
So here's all I'll say

So long forever  
So long forever  
So long forever  
So long forever

So long forever  
So long forever  
So long forever  
So long forever
