

# Black Sheep

Palaye Royale

Do you see what I've become?  
Why are you still holding on, on, on?  
Something lingers in my veins  
That's telling me I'm not the same, the same

And I am, and I am sinking now  
'Cause the water's over my ears  
And I can't hear no sounds

Scream out or drown  
Can you hear the voice say now?  
Go home and back to sleep  
And count the black sheep  
Lay down your head  
This is how you've made your bed  
Go on away from me  
I am the black sheep

I used to be an orphan boy  
Without a family or a choice, choice, choice  
You said it's all in my head  
You said it's all in my brain  
I'll always be this way, yeah, yeah  
There's nothing left that you can say to me

And I am, and I am sinking now  
'Cause the water's over my ears  
And I can't hear no sounds

Scream out or drown  
Can you hear the voice say now?  
Go home and back to sleep  
And count the black sheep  
Lay down your head  
This is how you've made your bed  
Go on away from me  
I am the black sheep

I am the outcast, I am your cancer  
I am everything you hate  
I am unwanted, I'm not the answer  
You were hoping that I'd change  
You push me down once again  
Because I seem different  
I am a cancer, I am a creep  
I am the black sheep

Scream out or drown  
Can you hear the voice say now?  
Go home and back to sleep  
And count the black sheep  
Lay down your head  
This is how you've made your bed  
I am a cancer, I am a creep  
I am the black sheep  
I am the black sheep  
I am the black sheep
