

## Cemeteries No. 01 (Running)

Palaye Royale

When the moon hits the sun  
It's becoming undone  
Little faces hide behind the all seen eye  
All killers are the same  
Drugs induce their veins  
But the stories fade away  
To the black and black and grey

So we under you, under you  
Where we rendezvous, rendezvous  
And we see it through, see it through  
God damn we know we have to  
And we under you, under you  
Where we rendezvous, rendezvous  
And we see it through, see it through  
God damn we know we have to

Running, running, running  
Don't stop me  
Take in, take in, take in  
Cuz I'm running, running, running  
Don't stop me  
Take me away  
And I'm running, running, running  
Don't stop me  
Take in, take in, take in  
Cuz I'm running, running, running  
Don't stop me  
Take me away

Cuz guns point to hidden faces  
And mental times of recreation  
And guns point to hidden faces  
And stealing time is my vacation oh yeah

So we under you, under you  
Where we rendezvous, rendezvous  
And we see it through, see it through  
God damn we know we have to  
And we under you, under you  
Where we rendezvous, rendezvous  
And we see it through, see it through  
God damn we know we have to

Running, running, running  
Don't stop me  
Take in, take in, take in  
As I'm running, running, running  
Don't stop me  
Take me away  
Cuz I'm running, running, running  
Don't stop me  
Take in, take in, take in  
And I'm running, running, running  
Don't stop me  
Take me away

Cuz I'm running, running, running  
Don't stop me  
Take in, take in, take in  
And I'm running, running, running  
Don't stop me  
Take me away  
Cuz I'm running, running, running  
Don't stop me  
Take in, take in, take in  
I'm running, running, running  
Don't stop me  
Take me away  
And I'm running, running, running  
Don't stop me  
Take in, take in, take in  
Running, running, running  
Don't stop me  
Take me away

La da da da da da la da de da, yeah  
Is everybody in now  
La da da da da da la da de da, yeah  
Is everybody in now  
Kids you cover your eyes  
Don't look to the skies  
Is everybody in now  
Run through the cemeteries  
And kick up leaves  
Celebration about to begin

La da da da da da la da de da yeah  
Is everybody in now  
La da da da da da la da de da, yeah  
Is everybody in now
