

# Hello Sunshine

Palaye Royale

Hello sunshine, where'd you go?  
I looked for you long ago  
Hello, darkness, my old friend  
Every night you're back again  
Hello, baby, just in case  
Leave my heart in its case  
Hello, father, where you been?  
I've gone to hell and back again

I'll be fucking lonely until

All my friends are dead  
Living in my head  
Living in my head  
Am I okay?  
All my friends are dead  
Living in my head  
Living in my head

I'm just trying to do what I can to be with them

Shut my eyes when I'm at home  
'Cause I'm scared to be alone  
I pretend I'm with my friends  
Make me laugh and smile again  
Hello, baby, just in case  
Leave my heart in its case  
Hello, mother, where you been  
I've gone to hell and back again

(We were put on earth to do anything you fucking want, so do it)  
I'll be fucking lonely until

All my friends are dead  
Living in my head  
Living in my head  
Am I okay?  
All my friends are dead  
Living in my head  
Living in my head

I'm just trying to do what I can to be with them

All my friends, they are dead  
Living in my head  
All my friends, they are dead  
Living in my head  
Living in my head  
Living in my head
