

# Hospital Beds

Palaye Royale

Hello, my friend  
I'm gonna be here till the end  
Of the universe, if I can  
I wanna fly, up in the sky, sky, sky

I wanna dance with you  
Take my hand, and I'll show you a few moves  
This is it, no more sorrow  
Leave the living for today, and the dying for tomorrow

No, I can't tell you how to say goodbye  
Cause' I've been waiting most of my life  
Behind the curtain, she's staring at my grave  
She slowly dances on her hospital bed, hospital bed

Well I say what I mean  
And I got all I need  
But I stand at 19  
Fell from the heavens, I'm the sun king  
What ya got? What ya need?  
Thank your god, and get off your knees  
Cause' you're living just to please  
Oh, leave the living for today, and the dying for tomorrow

No, I can't tell you how to say goodbye  
Cause' I've been waiting most of my life  
Behind the curtain, she's staring at my grave  
She slowly dances on her hospital bed, hospital bed

Well, I saw the world at its worst  
And I lived with Jesus first  
I am so blessed and cursed  
Layin' in the back of this Cadillac hearse  
I saw an angel cry  
You saw the devil die  
Well, I have the last goodbye  
Layin' in the back of this Cadillac hearse

Well, no, I can't tell you  
How to say goodbye...

No, I can't tell you how to say goodbye  
Cause' I've been waiting most of my life  
Behind the curtain, she's staring at my grave  
She slowly dances on her hospital bed, hospital bed...
