

## Little Bastards

Palaye Royale

Sometimes I've been losing my mind  
Running out of faith  
Lonely, I've been feeling lonely  
Put me in my place

Twist and fade  
Time to run away  
I can't take this  
I've been a little patient  
No escape  
I've got to get away a little faster  
Run you little bastards  
Run run you little bastards

Fake friends all around  
They watch while I drown  
No one is there to help me

Sometimes I've been losing my mind  
Running out of faith  
Lonely, I've been feeling lonely  
Put me in my place  
So fuck you, I don't even like you  
I'm sick of all the fake  
No sleep - got another nosebleed  
I can't feel my face

I've shut my mouth  
While you prance around in my jumpsuit  
Awe, that's so cute  
No escape  
I've got to get away a little faster  
Run you little bastards  
Run run you little bastards

Fake friends all around  
They watch while I drown  
No one is there to help me

Sometimes I've been losing my mind  
Running out of faith  
Lonely, I've been feeling lonely  
Put me in my place  
So fuck you I don't even like you  
I'm sick of all the fake  
No sleep I've got another nosebleed  
I can't feel my face

Twist and fade  
Time to run away  
A little faster  
Run you little bastards  
Run run you little bastards  
Run run you little bastards  
Run run a little faster  
Little bastards
