

## Off With The Head

Palaye Royale

I wake up every day at noon  
Eyes are black and blue by 2  
I'm getting used to the abuse  
Monsters are breaking down my door  
They slam my head against the floor  
They spill my blood but they want more, more, more

Nowhere to run, nowhere to run  
They're chaining me up  
But I don't give a fuck and there's  
Nowhere to run, nowhere to run  
My eyes go blurry as I stare to the sun

Off with the head they said, off with the head they said  
Off with the head they said, off with the head they said  
Everybody wants me dead, everybody wants me dead  
I said none of it's true  
I did nothing to you  
You're liars and thieves  
And bastards too

Some days you win and some you lose  
No matter what you'll be accused  
Every idiot's gotta pay their dues  
You too  
The executioner sharpens the knife  
He doesn't blink twice 'fore taking my life  
An eye for an eye won't make you sleep better at night  
No!

Nowhere to run, nowhere to run  
They're chaining me up  
But I don't give a fuck and there's  
Nowhere to run, nowhere to run  
My eyes go blurry as I stare to the sun

Off with the head they said, off with the head they said  
Off with the head they said, off with the head they said  
Everybody wants me dead, everybody wants me dead  
I said none of it's true  
I did nothing to you  
You're liars and thieves  
And bastards too
