Palaye Royale

Can't you see  
That everyone is dying?  
The animals are crying  
Religions are dividing  
As my family keeps on fighting  
As my family keeps-

Now I'm caught in something  
My eternal suffering  
Looking for the meaning of it all  
But I got nothing  
This eternal sadness  
Now I fade to blackness  
Don't know where I go when I die  
Must be better than this

And I'm here  
Just waiting for you to come home  
And I'm screaming all on my own  
With the revolver and a note  
Will you please pick up the phone?  
And I'm waiting for you to come home  
And I'm screaming all on my own  
With the revolver and a note  
Will you please come back home?

Ain't it sad when you got nowhere to go?  
Got no place to call your home  
Burden to everyone you know  
And I try  
Just not to think about my life  
So I do another line  
It keeps me numb just for the night  
It keeps me numb just for the night

Now I'm caught in something  
My eternal suffering  
Looking for the meaning of it all  
But I got nothing  
This eternal sadness  
Now I fade to blackness  
Don't know where I go when I die  
Must be better than this

And I'm here  
Just waiting for you to come home  
And I'm screaming all on my own  
With the revolver and a note  
Will you please pick up the phone?  
And I'm waiting for you to come home  
And I'm screaming all on my own  
With the revolver and a note  
Will you please come back home?
