## Palaye Royale

You find yourself  
Trapped in a room  
With somebody else  
Don't want to hurt you  
They just want to see you run  
Like never before  
They'll control you  
They think your happiness  
Is something to be sold  
They are going to break you  
And all your motivation  
It starts to unfold

I can tell  
I don't even want you anymore  
I can't lie  
I don't even want you anymore  
I can't take  
I can't even take this anymore, more, more

We say what we want to  
Oh, we live how we want to  
Baby, I die when I want to  
'Cause I got no way to go

You find yourself  
Asking for just a little bit more  
They're gonna steal your soul, honey  
But won't even leave a scar

I can tell  
I don't even want you anymore  
I can't lie  
I don't even want you anymore  
I can't take  
I can't even take this anymore, more, more

I say what I want to  
Oh, I live how I want to  
Baby, I die when I want to  
'Cause I got no way to go

So tear me down  
So tear me down right now right now  
So tear me down  
'Cause I got no where to go

If they can't find you  
They can't hear your heart beat  
They wanted to kill you  
When they saw you in the back streets

Well, I can't help you  
I can't even make a move  
They're going to find you  
'Cause they hear your heartbeat

I can tell  
I don't even want you anymore  
I can't lie  
I don't even want you anymore  
I can't take  
I can't even take this anymore, more, more  
[2x]

We say what we want to  
Oh, we live how we want to  
Baby, I die when I want to  
'Cause I got no way to go
