

## we have died

Pale Forest

Did you know?  
while you were sleeping I was not  
Did you know?  
I couldn't sleep cause of the things you never said  
I waited for so many nights to hear you say  
how every road I walked became the wrong way

When I tried to get to you  
I tried to reach the inner child  
All those times I tried to hold you  
left me feeling we had died  
we had died

Did you know?  
when we fought last night I knew  
that the blame was really mine this time  
I tried to make you show me  
a hint of what you tried to hide  
turne the tide

When I tried to get to you  
I tried to reach the inner child  
All those times I tried to hold you  
left me feeling we had died  
we had died
