

I tripped and let you in
And so it all begins
The high was unexpected
These sheets are wearing thin
Now you're underneath my skin
Guess I never learn my lesson

And you strip me down into nothing
Show me what I've been missing all of this time

You're the one girl that I just can't get enough of
Maybe it's love or maybe a moment
You're the one drug that I don't want to get clean from
Is it too soon to say that I'm falling?
I can't get off of you

What's there left to say?
It's really not my choice
I bang my head against the wall until I hear your voice
Yeah I've come undone
I'm hooked and I'm withdrawn
And I don't really care if it's my fault

You're the one girl that I just can't get enough of
Maybe it's love or maybe a moment
You're the one drug that I don't want to get clean from
Is it too soon to say that I'm falling?
I can't get off of you

And you strip me down into nothing
Show me what I've been missing all of this time

You're the one girl that I just can't get enough of
Maybe it's love or maybe a moment
You're the one drug that I don't want to get clean from
Is it too soon to say that I'm falling?
I can't get off of you
No I can't get off of you
I can't get off of you
