

Oh no it didn't take much convincing  
Cause I was doing more feeling than thinking  
And I just met your brother  
The start of the summer  
He warned me about you  
We drank in the pouring rain  
One glass of wine and somehow you changed

When I left you Glasgow  
I remember crying all the way home  
Yeah I had to go and get myself out of there  
Oh cause there was nothing left, nothing left  
For us to repair

I love the city cause it's all or nothing  
It's always cold but it's oh so loving  
You also were born that way  
That's the trouble you face  
You were losing your balance  
And I had to run away  
And I wondered if it was a mistake

When I left you Glasgow  
I remember crying all the way home  
Yeah I had to go and get myself out of there  
Oh cause there was nothing left, nothing left  
For us to repair

When I left you Glasgow  
I remember crying all the way home  
Yeah I had to go and get myself out of there  
Oh cause there was nothing left, nothing left  
For us to repair
