Pale Waves

Emily, I know the grass doesn't seem very green  
Life's not what it was at fifteen  
Working a nine to five just to get by  
Haley, I know the magazines say to be skinny  
You're one of a kind just trust me, trust me  
Don't listen to society

'Cause there's always tomorrow  
To get you by, get you by  
Tomorrow  
Won't you stay alive  
Give it one more try  
Won't you stay alive  
Give it one more try  
Won't you stay alive  
Give it one more try

Ben, I know that you love a boy  
Sexuality isn't a choice  
Don't let anyone say it's wrong  
Won't you just keep hanging on  
Kelsi, I know life brings you down  
Growing up in a small town  
Always the odd one in the crowd  
You know I'll never count you out

'Cause there's always tomorrow  
To get you by, get you by  
Tomorrow  
Won't you stay alive  
Give it one more try  
Won't you stay alive  
Give it one more try  
Won't you stay alive  
Give it one more try

I needed someone to say  
There's always another day  
Before it's all just too late  
Yeah I want you to stay

Tomorrow  
To get you by, get you by  
Tomorrow  
Won't you stay alive  
Give it one more try  
Won't you stay alive  
Give it one more try  
Won't you stay alive  
Give it one more try
