

Without You

Pale Waves

People move
Seasons change
It's no fun to stay the same
So I drift on with the tide
You get hurt
Then you learn
Light the candle let it burn
'Cause there's darkness in the light

Feels like a piece of me is missing
But I've tried absolutely everything
And I don't know how I'm supposed to feel

Without you
Without you
'Cause we're not who we used to be before
Without you (the world still spins)
Without you (the day begins)
'Cause the truth is you're not here anymore
I guess I'll learn to carry on without you

It is such a tragedy
All I have is these memories
To get me through the night
After all is said and done
I fought my best but never won
And my world changed to black and white

Feels like a piece of me is missing
But I've tried absolutely everything
And I don't know how I'm supposed to act

Without you
Without you
'Cause we're not who we used to be before
Without you (the world still spins)
Without you (the day begins)
'Cause the truth is that you're not here anymore
I guess I'll learn to carry on without you

I tried and tried to make you stay
Was there something I didn't say?
I live with that now
I live with that now
Now my tears could fill an ocean
And I'm stuck here in the same emotion
I survived somehow
Yeah I survived somehow

'Cause I don't know how I'm supposed to feel
Without you
Without you
'Cause we're not who we used to be before
Without you (the world still spins)
Without you (the day begins)
'Cause the truth is you're not here anymore
I guess I'll learn to carry on without you

How am I supposed to live without you?
