

# Fear & Dagger

Paleface

Walk with me in this never ending sea of despair  
Oh come kill me please I can't be here anymore all alone  
Fear & Dagger

I just want to see you suffering  
I just want to see you fucking swallowing  
The hatered that you spat at me, the anger that you left in me,  
The knife that you so dearly forgot in me

Everytime I start to write into this diary,  
My hatred starts to rise up in me and I want to end me  
I just want to kill the fucking misery inside me but  
I'm to afraid of facing the devil inside my body

I carry around a fairytale in my body  
She's the only one I know her name is Bloody Marry  
Bloody Marry help me  
You're all that's left inside of my lifeless soul

I will never forget the pain  
I will always be the one to blame  
This life offers me nothing  
But endless suffering that's why I'm hopeless

Everytime I start to write into this diary,  
My hatred starts to rise up in me and I want to end me  
I just want to kill the fucking misery inside me I want no more  
So please just come and

Walk with me in this neverending sea of despair  
Oh come Kill me please  
I can't be here anymore all alone by my fucking grave  
Fear & Dagger

The best thing I did was make a deal with the devil.  
He brought out the best in me  
I stared into his eyes, shook his son's hand  
Hell will look after me  
I can't cope with the fact  
That I have to raise my children in a fucked up world like this

I carry around a fairytale in my body  
She's the only one I know her name is Bloody Marry  
Bloody Marry help me  
You're all that's left inside of my lifeless soul

Everytime I start to write into this diary,  
My hatred starts to rise up in me and I want to end me  
I just want to kill the fucking misery inside me  
I want no more so please just come and

Walk with me in this neverending sea of despair  
Oh come Kill me please  
I can't be here anymore all alone by my fucking grave  
Fear & Dagger

This record is made for everyone that hates this world,

For those who hate themselves and hate every fucking thing.  
For those who don't feel accepted in society  
And who are struggling with themselves.  
We are one of you.

Cause this is fear and dagger

Fear, Dagger

This hell has become my home so I'll never be alone  
The demons have offered me peace for blood

Walk with me in this neverending sea of despair  
Oh Kill me please I can't be here anymore all alone  
Fear & Dagger
