

# Hellhole

Paleface

Welcome to my hell  
I hope you like it cause I've been there all along  
And I really hope the devil keeps me in here

Curse this fucking place, I hope this hell becomes new my home  
The air in here is making me so sick, my mouth is filled with foam

Hell

Welcome to my hell  
I hope you like it cause I've been there all along and  
I really hope the devil keeps me here

Curse this fucking place  
I hope this hell becomes new my home  
The air in here is making me so sick

Spill your guts. No I ain't got nothing  
I want you to know that The devil has denied my death so that's it  
Now I'm stuck in this fucking hell

I am the pain that you feel in your tounge  
I am the one that you wish to become  
I am the blood that fills all of your lounng  
I am so stuck in this hellhole

How can this be, the devil lives in me  
How can this be when I fall asleep  
I still can fucking see this devil is looking right back into me  
I am so stuck in this hellhole

The grave gets deeper from here on out  
Because I finally reached my mental end, I'm done, fuck it

I'm done

I'm done with this worthless, painful life

I'm fucking done with this worthless, painful life  
I've tried it for far to long, now it will come to an end  
Now I am stuck in this fucking hell

I am the pain that you feel in your tounge  
I am the one that you wish to become  
I am the blood that fills all of your lounng  
I am so stuck in this hellhole

How can this be, the devil lives in me  
How can this be when I fall asleep  
I still can fucking see this devil is looking right back into me  
I am so stuck in this hellhole

You have forced me to end my life

You don't understand the mental agony that satan put me through  
The hellhole has become my new home and I find comfort in my own death

Sever my life, say your goodbyes  
Burning alive, for the rest of time  
How can I live

Knife to my throat

Sleep with one eye open

Hellhole

Fuck you
