

Been bursting with the sore  
That's making you sleep on the floor  
A swollen sickly guest  
And I saw that I need some rest  
I'm pushing back your tongue  
With my clenched teeth home security system  
Twitching like a pet  
In the palm of someone's mean fat kitten

But you say, you're never home free  
'Cause you get off easy, easy  
But I tried on your shoes  
They make me bleed too

With muscles set to blow  
I'm plunging down a novice slope  
Just chewing off the ends  
And sucking out the vitamins  
I'm making quite a scene  
But all I need's a little sleep

All I need's a little sleep  
And I'll be could to clean the deep

I tried on your shoes  
They hurt my feet too

'Cause here we are and getting better  
Never gonna love the one  
'Cause here we are and getting better  
Never gonna love the one  
'Cause here we are and getting better  
Never gonna love the one
