Personal

Palisades

Talking
Spreading it all around
You love
Running that mouth
Thinking
You got it figured out
But you're
A face in the crowd
Fake it till you make it
Spittin all the same shit out
Then you sit back down on a made up throne, oh
But everyone knows so

Don't say you tried
You're just making it personal
Don't feed them lies
You're just making it fictional
The web is wide
You're caught inside
And it's looking more pitiful
Believe this time
That I'm taking it personal

Head case
You're so delusional
You're so
Vain that it hurts
Sell out
Just so that you'll be seen
But you'll
Never be heard
Cause you got a habit
Of burning all your bridges down
Then you'll sit back down on a made up throne, oh
But everyone knows so

Don't say you tried
You're just making it personal
Don't feed them lies
You're just making it fictional
The web is wide
You're caught inside
And it's looking more pitiful
Believe this time
That I'm taking it personal
That I'm taking it personal

Holding on to chances that you've already wasted
Folding under pressure that you never could take
A little blaming other people for the things that you break and get told
But everyone knows so

Don't say you tried
You're just making it personal
Don't feed them lies
You're just making it fictional
The web is wide

```
You're caught inside
And it's looking more pitiful
Believe this time
That I'm taking it personal
That I'm taking it personal
That I'm taking it personal
Yeah, I'm taking it personal
Yeah, I'm taking it personal

You're caught inside
And it's looking more pitiful
Believe this time
That I'm taking it personal
That I'm taking it personal
```
