I met you we made a pact Broke promises the system snaps All your lights and neon lights are old Dicta-coated miracles and then one day the curtain called Behind your smile you're bony and a fake Give it up You've been discovered (Ooh-ooh ooh-ooh) Don't look back 'cos you've just lost your lova' Give it up Your unillusioned (Ooh-ooh ooh-ooh) Play our tricks and all I get is just confusion And now we're through The show is over The audience is walking out the room You know it's true, when I told ya That all this gunk comes back around on you You said you were built to last You took my hand you made a pass The moon eclipsed and circled round my heart With your kiss my life began Your love it hit and then you ran And I hope you pay your dues I'm moving on Give it up You've been discovered (Ooh-ooh ooh-ooh) Don't look back 'cos you've just lost your lova' Give it up Your inillusioned (Ooh-ooh ooh-ooh) Play our tricks and all I get is just confusion And now we're through The show is over The audience is walking out the room You know it's true, when I told ya That all this gunk comes back around on you You might think I'm sitting home and crying But I'm not, oh no I've pulled the Queen of Clubs, there's no denying I'm having the time of my life And now we're through The show is over The audience is walking out the room You know it's true, when I told ya That all this gunk comes back around on you And now we're through The show is over The audience is walking out the room You know it's true, when I told ya

That all this gunk comes back around All this gunk comes back around

On you.
