

# Karma

Pam Tillis

Everything that possibly could go wrong  
Has gone wrong from the start  
You lie so much you can't keep up with what you lie  
Keeping me in the dark  
Lying all alone and hurting  
Lessons that I wish were in the past  
Are catching up with me fast

You're my Karma aren't ya  
I used to be the heart breaker now I'm the breakee  
What goes around comes around nobody's free from Karma  
You're my Karma

I feel the pain of everyone that I made blue  
A strange reverse deja vu  
Every action has a kind of consequence  
The universe sent me you

I'm looking for a larger meaning  
(Do do do do do do ahh ahh)  
Behind the little ways you break me down  
(Do do do do do do)  
And I'm just about enlightened out

You're my Karma aren't ya  
I used to be the heart breaker now I'm the breakee  
What goes around comes around nobody's free from Karma  
You're my Karma

You hold my heart in your hands  
(My tender heart my fragile heart)  
Better make sure you understand

I'm looking for a larger meaning  
Lessons that I wish were in the past  
Are catching up with me fast

Cause you're my Karma  
Aren't ya

Sometimes the heartbreaker becomes the breakee  
What goes around comes around nobody's free  
From Karma  
You're my Karma  
You're my Karma
