

# Bottle Me Your Tears

Pamungkas

Bottle me your tears  
Write a note on it  
Tell that you're sorry  
That you love me bad

Here we go again  
Shouts and self blames  
Why don't we stop now  
And moving on  
'Cause I'm so not ready for this

Bottle me your tears  
Write a note on it  
Tell that you're sorry  
That you love me bad  
Beg me to come back  
Watch me as I go  
Or just smile and wait  
I'll come back anyway

Let's not waste our time  
Let's keep it cold  
Can't see you like this  
All sad and tears  
You know we're good  
But I gotta go  
We had this before  
One more heartbreak  
One more of this  
Might as well be good for us

Bottle me your tears  
Write a note on it  
Tell that you're sorry  
That you love me bad  
Beg me to come back  
Watch me as I go  
Or just smile and wait  
I'll come back anyway

And I'll come back in tears  
Tell that I'm sorry  
That I loved you wrong  
I like you too much  
Makes me wanna go  
But I hate to leave you  
I hate to leave you  
I hate to leave you

I hate to not feeling okay  
Things are just wrong  
And your eyes sending signals  
That only you can understand  
Walls up and I just can't  
Make things aligned  
What happened to  
"Happy just to be with you"

What happened to  
"Happy just to be with you"  
Bottle me your tears
