

## Modern Love

Pamungkas

Art is turnin', the world is endin'  
Love changin'  
No one talks and fingers wander  
Boredom lingers

Emojis sent as a hello  
While we let our feelings grow  
And grow and grow and grow  
I know

My words are flyin', your lips are smilin'  
Our hopes are buildin'  
But I don't care 'cause I'm sure that you know that  
Nothin' lasts

Though we are well aware for sure  
The two of us low-key wish for more  
And more and more and more  
I know

I want it to be you, you want it to be me  
You've got nothin' to lose, I'm lonely as can be  
We've been longing for something good  
Even die for it, oh we would  
You don't want forever, I'll take whenever  
We are the youth, this is modern love

Fucks and kisses, easiest access  
I want more  
'Cause my tired soul that seeks for home  
Is here to stay

Emojis sent to let you know  
That maybe it's best to let it flow  
And flow and flow, oh oh oh oh oh oh

I want it to be you, you want it to be me  
You've got nothin' to lose, I'm lonely as can be  
I wanted to be loved, you wanted to be free  
I want it to be you, you want it to be me  
We've been longing for something good  
Even die for it, oh we would  
You don't want forever, I'll take whenever  
We are the youth, this is modern love
