

Always

Panama

Always I remember you
Slow down so I can follow you
And you, such a fearless soul
Disarmed me by truth, and broke my mold

Always I remember you
Slow down and try to tell the truth

And I know I'm just a coward when it comes to love
Disarmed by words, like an old white stain
Goodbye my deeper child
Time to break down your barricades
And follow your own heart now

Always I remember you
Slow down, and try to tell the truth
Always I can recall you
Can you slow down so I can follow you?

Deep down you said I'm a coward when it comes to love
Deep down your words changed my mold
Deep down you said I'm a coward when it comes to love
Deep down your barricades changed my mold
