

Control

Panama

Who is in control
Who is in control
Does he like that, when you're like that
Does he like that, I know, I know
Does he like that, when you're like that
Can't get it back, control, control

Who's in control
Who's in control
Who's in control
Who's in control
Who's in control
Who's in control
Tell me who is in control

Don't let it hurt, not today
Don't wanna fight, not this way
Overloaded in my heart
I can't light up, no I can't let go no
All the plans that I made, I see it all disintegrate
Leaving me back behind
I can't light up
No I can't light up, no

And all this pain, will not go away
Lately I don't light up
No doubt here no more
No out here no more
No this is not right

Does he like that, when you're like that
Does he like that, I know, I know
Does he like that, when you're like that
Can't get it back, control, control

Does he like that, when you're like that
Does he like that, I know I know
Does he like that, when you're like that
Can't get it back, control, control

Does he like that, when you're like that
Does he like that, I know, I know

Does he like that that, when you're like that
Can't get it back, control, control

Does he like that, when you're like that
Does he like that, I know, I know

Does he like that, when you're like that
Can't get it back, control, control
