

Everything Begins Again

Panama

I don't know what to say
Tell me if I stop here
I can feel it compete
Every single word that I meant
It's not about trust no
Tell me that you want to stop
I can't let down, I can't let down

One step forward, two steps backwards
It's not about love
One step forward, two steps backwards
It's not about love

And everything is changing
I don't know which way to go
And everything is changing
I don't know which way to go

And everything is changing
And everything is changing oh

I don't know what to say
Tell me if I stop here
I can feel it complete
Every single word that I meant
It's not about trust no
Tell me that you want to stop
I can't let down, I can't let down

I can't let down
I can't let down
I can't let down
I can't let down

And everything is changing
I don't know which way to go
And everything is changing
I don't know which way to go
And everything is changing
And everything is changing oh

I can't let down
I can't let down
I can't let down
I can't let down

And everything is changing
And everything is changing oh
And everything is changing
