

Motion

Panama

Motel bar
Take it up
Make it up as we go
Rain won't stop
As we go
When the pain the settles down

Is this all there is, all there is
Tell me now
Will my plane touch the ground
Is this all there is, all there is
Tell me now
What goes up must come down

Go through the Motion
Go through the Motion
Go through the Motion with you
Go through the Motion
Go through the Motion
Go through the Motion with you
I'll go through it for you
I'll go through it for you

Summer comes
Up the coast
Heading back up to home
Watch it go
Like a bird
A bird and never come down

Is this all there is, all there is
Tell me now
Will the bird touch the ground
Is this all there is, all there is
Tell me now
Will the bird touch the ground

Go through the Motion
Go through the Motion
Go through the Motion with you
Go through the Motion
Go through the Motion
Go through the Motion with you
I'll go through it for you
I'll go through it for you

I'll go through it for you
I'll go through it for you
