

Nowhere to Hide

Panama

And the world passed me by
Forgot the man, who I was
It took all I had
Each time I look
Nowhere to hide
And I know
That I love you, love you
And the world, passed me by

The future
Can't go on, can't go on
The future
Can't go on, can't go on
The future
The future
The future
The future

And I lost, all my time
Forgot the man, who I was
The war in my mind
Each time I look, nowhere to hide
And I know, that I love you, love you
And the world passed me by

The future
Can't go on, can't go on
The future
Can't go on, can't go on
The future
The future

The future
The future
The future
The future
The future
The future
You worry about the future
