

# One Piece

Panama

Reaching out across the stars and space  
We see sunlight going down through the leaves  
Above the temple of the sun into the bluest skies  
Across the stars and space

It brings us back together  
One piece at a time  
It brings us back together  
(Brings us back together)  
One piece at a time  
It brings us back together  
(Brings us back together)  
One piece at a time

We we we are climbing  
Up up the highest mountains to a foreign air  
So far away from home  
Up the sun unto the peak  
into a different world  
Across the stars and space

It brings us back together  
One piece at a time  
It brings us back together  
(Brings us back together)  
One piece at a time  
It brings us back together  
(Brings us back together)  
One piece at a time  
It brings us back together  
Falling back in line

I, I [?] my mind  
I, I, I [?] high  
I, I I [?] my mind  
I, I, I [?] high

Ohhhh, ohhhh  
It brings us back, it brings us back  
Ohhhh, ohhhh  
It brings us back, it brings us back

It brings us back together  
(Brings us back together)  
One piece at a time  
It brings us back together  
(Brings us back together)  
One piece at a time  
It brings us back together  
It brings us back together
