

# Stop Dreaming

Panama

Breathing in  
Breathing out  
I can't stop the feeling  
Still my heart is young  
Still my heart is young  
But remains beating  
From within unto without  
She can't stop the feeling

Still the heart is young  
Still the heart is young but she'll never believe me

So stop dreaming, boy and keep the love that was blind don't let her blind you  
So stop dreaming, boy and keep the love that was blind don't let her blind you  
So stop dreaming, boy and keep the love that was blind don't let her blind you  
So stop dreaming, boy and keep the love that was blind don't let her blind you

Her life is long and lonely his thoughts are with her only  
Still the heart is young, still the heart is young  
But she could never deceive me  
This can't go on forever  
I know it must get better  
Still our hearts are young, still our hearts are young  
Will she ever forgive me?

So stop dreaming, boy and keep the love that was blind don't let her blind you  
So stop dreaming, boy and keep the love that was blind don't let her blind you  
So stop dreaming, boy and keep the love that was blind don't let her blind you  
So stop dreaming, boy and keep the love that was blind don't let her blind you

Still our hearts are young, still our hearts are young  
Still our hearts are young, still our hearts are young  
Still our hearts are young, still our hearts are young
